

MAGNUM SCREEN ZIP 110

The unique shading system, with outstanding screen side guidance thanks to ZIP welded onto the edge of the fabric. ZIP provides exceptional resistance to weather conditions and optimal level of natural daylight in the buildings interior. The system can also be applied as mosquito net. Comfortable control is provided by a built-in motor actuated by a remote control or a wall switch. Large selection of fabrics with a wide span of both technical parameters and colors. All the above makes the ZIP a perfect match for the concept of passive and energy efficient houses.
